

For Geremia, swimming pools aren't

Beginning with our talented design team, through completion of our quality construction process—no one can build your dream project like Geremia Pools.

We're a builder with high integrity, broad experience—unique in the Sacramento region with our prestigious membership in the Master Pools Guild.

Our first pool. The year, 1922.

With Geremia, no job is too large or too small. And with 80 years mastery in the art and science of construction, no wish is too challenging.

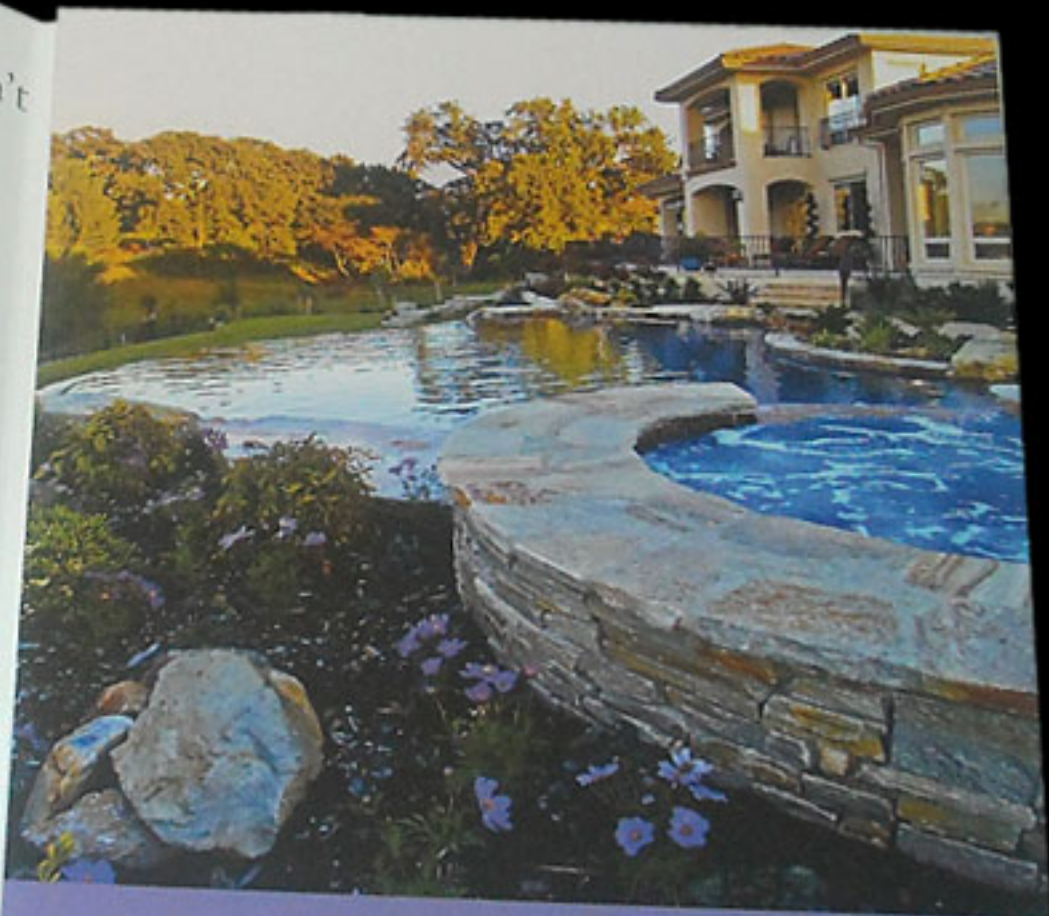

We're a team of detail conscious professionals, bringing home to you extensive experience from the demanding world of commercial pool installation.

To streamline your multi-phased project, we integrate all aspects of pool building under one roof: design, construction, service, repair and remodeling.

Geremia raises the bar when it comes to building standards, often exceeding those set by the pool industry.

We're uniquely versatile and qualified ready to help you make a subtle, classic statement or a bold and dramatic one—whether an intimate spa or a spectacular water performance.

We think the time was well spent.
